

PUTERI BASRI

ICT STUDENT (UI/UX)

✦ About Me ✦

Fontys ICT student focused on UI/UX, web, and visual design. I enjoy turning ideas into digital experiences that are both visually strong and easy to use.

My approach is practical: understand the user, structure the content, and design with intention. I work iteratively, continuously testing and improving my designs to get to better results. Alongside design, I'm developing my frontend skills to better understand how ideas translate into real products.

🔍 Skills

UI/UX Design
Web Design
Visual Design
Branding
Front-end Development
